

## Automatic Animal Continuous Syringe Drencher

Weiyou® Automatic animal continuous syringe drencher is a simple pump consisting of a plunger that fits tightly in a tube. Weiyou® Automatic animal continuous syringe drencher with drencher canula is used to feeding medicine for animal, oral medicine. As the manufacturer in China, Weiyou® has mature production lines and supply chains, and always supply best quality product, best favourable price and best service.

### Product Description

Weiyou® Automatic animal continuous syringe drencher is a simple pump consisting of a plunger that fits tightly in a tube. The plunger can be pulled and pushed along inside a cylindrical tube (called a barrel), allowing the syringe to take in and expel a liquid or gas through an orifice at the open end of the tube. The open end of the syringe may be fitted with a hypodermic needle, a nozzle, or tubing to help direct the flow into and out of the barrel. Weiyou® Automatic animal continuous syringe drencher is often used to administer injections, insert intravenous drugs into the bloodstream, apply compounds such as glue or lubricant , and measure liquids. Weiyou® Automatic animal continuous syringe drencher with drencher canula is used to feeding medicine for animal, oral medicine.
